

## The New ContiPT18: For Those Who Want to Set Things in Motion

- **New: tread wear indicators for efficient monitoring of tread depth**
- **New tyre sizes in quarter two, 2024 available**
- **Specific tread pattern provides exceptional grip and high traction**
- **Long mileage, low rolling resistance: two-stage design for maximum performance and efficiency**

Continental has successfully enhanced its material handling tyre portfolio with its updated ContiPT18 press-on-band tyre. Tread wear indicators provide information about the condition of the tyre and indicate when the tread no longer meets the minimum depth. Furthermore, Continental has announced eight new tyre sizes in quarter two, 2024.

The ContiPT18 press-on-band tyre is known for its performance and energy efficiency. Used primarily in intralogistics, the product line is designed for indoor and outdoor use on any surface and is suitable for the highest demands and applications in three-shift operation.

### **Tread wear indicator increases safety during operation**

The new tread wear indicator can be seen on both sidewalls of the tyre, making it quicker and easier to determine the right time to change a tyre. This can reduce overall operating costs by maximising tyre utilisation and contribute to greater sustainability.

“With the new ContiPT18, we have developed a tyre that not only offers outstanding performance and energy efficiency, but also contributes to greater operating safety and efficiency,” says Matthias-Stephan Müller, Product Manager for Material Handling Tires at Continental Specialty Tires. All ContiPT18 tyres are also available in non-marking versions.

### **High mileage with low rolling resistance in new tyre dimensions**

The ContiPT18 offers maximum performance thanks to its two-stage design. Müller said: “Thanks to the modern tyre compounds we use, heat generation is low while wear resistance is high.” This results in high mileage combined with low rolling resistance. The tread provides grip and optimised transmission of lateral forces, even with heavy loads.

In addition to the standard sizes, in quarter two, 2024, the following articles will be available:

<b>Article number</b>	<b>Product designation</b> (size specification in inches)
13003850000	10X5X6½ ContiPT18 ROB STB CL
13003860000	15½X6X10 ContiPT18 ROB STB CL
13003930000	15X5X11¼ ContiPT18 ROB STB
13003940000	15X5X11¼ ContiPT18 ROB STB CL
13003970000	16¼X7X11¼ ContiPT18 ROB STB
13003980000	16¼X7X11¼ ContiPT18 ROB STB CL
13004010000	18X9X12⅛ ContiPT18 ROB STB
13004020000	18X9X12⅛ ContiPT18 ROB STB CL

**Continental** develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2022, Continental generated sales of €39.4 billion and currently employs around 200,000 people in 57 countries and markets.

Tire solutions from the **Tires group sector** make mobility safer, smarter, and more sustainable. Its premium portfolio encompasses car, truck, bus, two-wheel, and specialty tyres as well as smart solutions and services for fleets and tyre retailers. Continental delivers top performance for more than 150 years and is one of the world's largest tyre manufacturers. In fiscal 2022, the Tires group sector generated sales of 14 billion euros. Continental's tyre division employs 57,000 people worldwide and has 20 production and 16 development sites.
