Our new UltraContact™.

Our recipe for ultra-high mileage driving pleasure.

Enjoy your driving experience without worrying about the need for new tyres. Our UltraContact – with its YellowChili compound and harmonised tread pattern design – provides you with ultra-high mileage and a safe and balanced driving experience. You won't have to worry about buying new tyres for a very, very long time.

When streets are rough, this tyre remains tough.

Driving is a pleasure when you know that almost nothing can stop you. Our new UltraContact has been developed to give you exactly this feeling: Its all-round protective construction with thick and durable UltraShield casing provides remarkable damage protection for everyday driving.

Whether the roads are rough or smooth, we're confident you will enjoy the ride.

For safe performance on rainy roads.

Enjoy every mile you spend on the road – even if it rains. A large number of uniquely shaped sipes increases the wipe-out effect of water to enable short braking distances, while special noise breakers in the grooves lead to significant noise reduction. All this ensures every journey is as safe and as comfortable as possible.

Dimensions.

Tyre width in mm:

155-245

Tyre cross section:

40-80

Rim size in inches:

14-20

Speed symbol:

T-Y

EU tyre label values

Fuel efficiency: B-C

Wet braking: A

Noise level: A-B (68-72 db)
